

**The Country Day School**  
**Middle and Senior School Technology Integration Specialist – Full Time**  
**Commencing August 2017**

An opportunity exists at The Country Day School for an experienced teacher to join our Information Technology department. The successful candidate will have a university degree and certification to teach in Ontario. Communications/Computer Technology qualifications will be considered an asset.

Advanced expertise in all primary G Suite applications is essential; Google Certified Educator status is preferred. Advanced working knowledge of a variety of software platforms, including but not limited to Microsoft Office and Adobe Creative Suite is preferred.

In this role, you will draw upon your years of teaching experience to help expedite and further our use of technology to enhance curricular objectives.

Responsibilities associated with this position include:

- Reporting to the Director of Academics M/S the candidate will also work closely with School Directors, including the Director of Technology and Creativity, to implement and enhance a considered use of technology across the curriculum as per the School's strategic plan.
- Working actively with teachers and students at the classroom level to integrate technology and facilitate learning in a purposeful and meaningful way using technology as a teaching and learning tool.
- Providing on-going in-class technical and logistical support for students and teachers.
- Supporting special technical projects, presentations and publications.
- Researching and recommending educational software platforms and applications.
- Assisting with the application of a technology skills continuum across all grades.
- Assisting with the upkeep, application and management of a wide variety of instructional devices, including iPads, Chromebooks, laptops and desktop computers.
- Developing and administering technology related training for faculty and staff.
- Developing and leading our online and blended learning initiatives, with the possibility of teaching an innovative in-class-online course.
- Teaching and informing technology-related courses.

The university-preparatory curriculum at CDS is balanced with extensive athletic, arts and extra-curricular programs. In addition to the relevant educational background, candidates must be willing to become involved in all facets of school life.

The Head of School invites qualified individuals to apply by **February 13, 2017** with resume and cover letter to:

**Mr. John Liggett, Head of School**
