

Software/Web Developer

Oakwood School is a K-12 coeducational day school in North Hollywood, California that opened its doors in 1951. The school has remained faithful to its original mission ever since: to create a diverse educational environment where young people are partners with the adults who teach them and learn from them; where the best means of preparing students for the future is to immerse them in the present; where a healthy learning environment requires joy and humor as well as rigorous intensity; and where students' intellectual and aesthetic depth – along with their capacity for empathy and moral courage – emerge out of authentic engagement with their teachers, one another, and the world around them.

The Opportunity

The Software/Web Developer is responsible for all stages of design and application building in a Windows environment including:

- Designing new web applications using ASP.NET (VB and C#) and SQL Server 2012-2016
- Supporting existing, legacy.NET web applications
- Developing and supporting Blackbaud applications (Raiser's Edge, Financial Edge, Education Edge, NetCommunity, OnCampus)

This is a unique opportunity to work in a premier independent school - a mission driven organization with a strong financial outlook and a dedicated collaborative workforce. Oakwood is seeking a candidate with outstanding software design and application skills, a relevant record of accomplishment, and the passion to make a positive impact as a key member of the Information Technology team.

Qualifications

Bachelor's degree in Computer Science or related field and several years of experience and training that provides the required knowledge, skills and abilities. Advanced web development skills using .NET Framework (C# and/or VB.NET). Experience designing, developing, deploying, and supporting Web Applications. Skilled at front-end/back-end, using HTML/CSS/Javascript. Expert knowledge of using API 3rd parties for integration, migrating legacy systems into the cloud (AWS or Azure) and MS Office suite and Adobe Photoshop. Advanced knowledge of SQL queries and stored procedures. Experienced with object-oriented programming and concepts.

Please forward your resume and letter of interest to Eric Lee, Director of IT at Oakwood School – elee@oakwoodschool.org. No phone calls, please.

Oakwood School is an equal opportunity employer committed to cultural diversity in our workforce.
