

The Churchill School and Center is seeking a Technology Integrator to work primarily in the Middle School. This is a full-time, 10-month position that begins on August 21, 2017. The Technology Integrator reports to the Director of Technology, and works closely with the Educational Technology Coordinator, faculty, students and administration to support and enhance the use of technology in the classroom.

Responsibilities

- Work collaboratively with faculty to seamlessly integrate technology into curriculum, in an effort to enhance instruction and learning
- Teach technology classes for 6th, 7th, and 8th grades
- Work one-on-one with students in need of training in assistive technology
- Develop and lead professional development sessions for faculty
- Train students, faculty, and administration to use available software and hardware
- Keep up to date with current trends in educational technology and technology education
- Attend regular planning meetings with teaching teams and provide technology updates and extension ideas
- Investigate innovative technologies and applications for classroom use

Possibilities

- Develop an after-school program in robotics, 3D design/printing, and/or other topics
- Expand course offerings in computer science and technology
- Spearhead the expansion of our Makerspace program

Requirements

- B.A. or B.S. degree (M.A. or M.A. Ed. preferred)
- Experience with macOS, iOS, and Google Apps for Education
- Strong communication and interpersonal skills
- Ability to work independently and as part of a team
- Ability to multitask, prioritize, and meet deadlines
- Experience in a learning disabled setting is preferred
- Must be adaptable, flexible, with a growth mindset

Interested candidates should email a cover letter and resume to techjob@churchillschool.com
