Teacher of Technology and Science (Computer Science and Physics)

Description
Essential Duties and Responsibilities

Responsibilities
Instructional Practice
- Guided by the Cristo Rey Network's standards and benchmarks, develop standards-based, data-driven annual, unit, and lesson plans that drive student-achievement gains on core assessments, including Cristo Rey Network end-of-course assessments.
- Design and administer interim assessments aligned to course standards, complete in-depth analysis of student performance on them, and design appropriate instructional responses to assessment results.
- Implement rigorous, engaging, high-impact lessons that accelerate student growth and differentiate for individual students.
- Provide targeted one-on-one and small-group tutoring to students outside of regular class time.
- Actively build an understanding of each student as an individual in the spirit of cura personalis (care for the whole person).
- Help define, and consistently uphold, school-wide practices, routines, and norms for student behavior including PBIS (positive behavior interventions and support) and High Trust philosophies.
- Maintain a classroom culture that supports student learning.
- Reflect on teaching practices through regular coaching meetings guided by the Danielson Framework for Teaching

Professional Presence
- Participate in continued professional development.
- Participate actively in the professional community through collaboration with colleagues in a range of contexts.
- Contribute to the Cristo Rey community outside of classroom responsibilities.
- Partner with the full Cristo Rey community to further the mission as a college preparatory school.
- Model values consistent with Catholic, Jesuit education and service to others.
Other responsibilities and duties as assigned by the Principal

Requirements
Required:
- Bachelor's degree with a major, minor, or comparable credential of content expertise in the primary teaching
discipline;
- Proficiency using technology to advance teaching and learning;
- Competency in designing and implementing curricula to serve a heterogeneous student population diverse in
culture, religion, and ability.
- Commitment to the mission of Cristo Rey Jesuit High School.
- Complete Virtus training, sign a Code of Conduct, and pass a background check.

Preferred:
- Teaching license in the primary teaching discipline
- Training with AP Computer Science Principles or openness to training
- Master's Degree in Education or content area
- Prior successful inner-city high school teaching experience
- Experience with teaching students in need of significant academic support
- Ability to speak another language
- Experience working with English language learners
- Ability to collaborate with colleagues effectively
