

Technology Teacher (K-6)

School Year 2017-2018

The Technology Department at Foote fills a dual role, providing both academic and technical support to the school. Foote has 120 adult and 485 student users requiring varied levels of support across multiple academic disciplines and administrative departments.

The Foote School Technology Teacher works directly with students to support the use of appropriate educational technology tools. The position reports to the Director of Technology and the Head of Lower School.

The successful candidate will be a team player and a nurturing, flexible person who understands the developmental and cognitive needs of children. The candidate will have proven experience as a creative thinker and innovator in educational technology. The ability to communicate effectively with students, parents and peers as well as employ a variety of instructional techniques to engage young learners is essential.

We are deeply committed to diversity and an inclusive curriculum and community. We actively encourage applications from candidates with broad and diverse backgrounds and from individuals of all races, nationalities, and beliefs. We seek candidates who have a clear interest in being part of a community that challenges prejudice and is committed to diversity and inclusion.

All members of our faculty are expected to be involved in the Foote School community through participation in school-wide committees and activities.

Job Responsibilities:

- Work with teachers in grades Kindergarten through six to research, recommend, and implement new technologies into the curriculum and to support them in and out of the classroom with:
