

**The Elisabeth Morrow School
Englewood, New Jersey**

Technology Integrator

The Elisabeth Morrow School, an independent threes-through-eighth-grade school in Englewood, NJ, seeks a Technology Integrator beginning in September 2015. The appointed candidate will join an innovative school and technology department that has won awards in the area of multimedia and has an international reputation using virtual environments in schools. We also value a focus on participatory social media, citizenship, and safety. The Technology Integrator will play a key role in enhancing curricular innovation, training and supporting teachers, as well as advancing school-wide initiatives. The ideal candidate will possess a deep knowledge of educational technology, excitement about working with elementary and middle school students, and be extremely ambitious in building relationships and programs.

Job Description:

- Support fifth-eighth grade teachers in using technology to enhance:
 - Instruction
 - Differentiation
 - Assessment
 - 21st Century Thinking
- Collaborate with department chairs toward tech integration that transforms learning
- Provide formal and informal professional development to all EMS faculty & staff
- Offer “just in time” training, one-on-one or in small groups as needed
- Support development of iPad and 1:1 laptop programs school wide
- Consult on and support the implementation of a new Learning Management System
- Teach technology classes and electives
- Identify opportunities for curricular and/or instructional innovation
- Work with technology department and STEAM initiative as well as other school-wide initiatives
- Work closely with the Technology Director and department in curricular planning as well as giving input on budgets, hardware and software purchasing, and management of resources
- This is a 10-month position. The Technology Integrator will report to the Middle School Head and be a member of the technology department

Desired Skills and Experience:

- Interest and experience in working with elementary and middle school students
- Deep knowledge and experience with educational technology, especially multimedia, virtual worlds, Google Apps for Education, maker spaces, Learning Management Systems
- Interest in constructive learning environments with value on tinkering, inquiry, creation, play, and reflection
- At least 3-5 years of educational technology experience, independent school experience a plus
- Experience with and knowledge of curriculum development
